1. Claims 12-14 remain rejected under 35 USC 112, second paragraph, as set forth in the previous office actions. These claims are the original claims filed on pages 8 and 9 of the specification. There were 14 claims filed and the preliminary amendment only canceled claims 1-11.

2. Claims 23-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 23 it is unclear as to the relationship of the magnetic field outside the sample to detecting and locating material inhomogeneities. Claim 23 is also incomplete since no step has been recited as to how the inhomogeneities are detected.

3. Claims 15-22 are allowed.

4. Claims 23-32 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
